

# Enlighted Asset Tag 1U

## SPECIFICATION

The Enlighted Asset Tag 1U is a part of Enlighted's Where global enterprise-wide real-time location system. The Enlighted Asset Tag 1U transmits Bluetooth Low Energy (BLE) advertisements received by the Enlighted Sensor Network. By physically attaching the Enlighted Asset Tag to objects, the Enlighted Where application can quickly and reliably locate and track assets.

### OVERVIEW

Designed to track assets in a variety of applications and environments, the Enlighted Asset Tag 1U has an IP67 rated enclosure constructed of materials capable of withstanding medical cleaners and harsh industrial environments. With an expected battery life of five years in asset tracking use cases, the tag is long-lasting, reliable, and durable.

The tag can be secured to a flat surface with an integrated adhesive strip or to a curved surface with a separate mounting bracket. Each tag transmits its unique ID and proprietary advertising message ensuring only valid tags are tracked by the Enlighted Sensor Network and Where application.

### FEATURES

- Broadcasts Bluetooth Low Energy (BLE) advertisements
- The integrated accelerometer detects motion and adjusts advertising rate to optimize battery life
- Easy user button activation for use with the Enlighted Where application

### DATA PRIVACY

The Enlighted Asset Tag 1U broadcasts BLE beacons received by Enlighted sensors to compute the location of the asset tag. The tag does not have the ability to directly reference, distinguish or identify any natural person or the asset it might be associated with.

### DIMENSIONS

### MOUNTING THE TAG

Mounting the tag to a curved surface using the bracket
